Subject: Annual Site Compliance Evaluation for NOI for Arrow  
Gear Company, Downers Grove, IL 1995 and 1996 NPDES  
Storm Water Permits.

Dear Mr. McSwiggin,

The Notice of Intent (NOI) covered under a General Permit for the Arrow Gear Company located in Downers Grove, IL for storm water pollution prevention plan is being reviewed and updated. The person responsible for environmental compliance is Harry Hartzell, working out of the Metallurgy Lab as a metallurgist and environmental co-ordinator. The quantitative data submitted on September 30, 1992 as part of the SWPPP is still accurate and recorded as pertinent data.

In addition, there will be some forth coming changes in the NOI because of additional building construction covering the original concreted yard and out-sheds used for warehousing and storage areas.

EPA Form I, Section IV.2. The facility contact is now Harry Hartzell. The phone number is 630-969-7640, Ext. 268.

Sincerely,

Harry Hartzell  
Environmental Co-ordinator
